10. SOURCES OF DATA..	15

This is a profile of College Town Ward. It is intended to accompany the wider Joint Strategic Needs Assessment of Bracknell Forest. Profiles have been created for each of the Electoral Wards within Bracknell Forest.

The profiles are split into nine topics with these being accompanied by a summary of key findings and supported by metadata (information about the data used within the profiles).

The profiles are a tool which will be regularly developed with both improved functionality and also new and refreshed indicator data. We welcome your comments and suggestions so that we can ensure future developments are relevant and useful to you.

The profiles are in the main based only on data that are collected nationally with a high degree of completeness. This has been supplemented with local data where this has been considered appropriate.

Some indicators may give small numbers at Ward level. This should be taken into consideration when interpreting the data. Small changes in counts can lead to wide variance in the rate, and counts can vary significantly from year to year.

Any provisional conclusions drawn from the profiles should be compared with other sources of information, both quantitative and qualitative.

# 1. SUMMARY

There are 6,482 people living in College Town, 7.9% of these are children aged 0 to 15 and 6.2% are older people aged 65 and over. The non-white British population accounts for 19.4% of the total population. 82% of the College Town population were born in the UK. This is fewer than the average of Bracknell Forest.

College Town is the 16th most deprived ward in Bracknell Forest (out of 18 Wards). 5.5% of children in College Town are at risk of living in poverty, compared with 10.2% across Bracknell Forest.

In College Town 4.5% of the working age population claim benefits compared with 7.4% in Bracknell Forest. 76.05% of the population of College Town who are aged 16 to 74 years are in employment. This is higher than the average in Bracknell Forest. In College Town, the majority of people in employment (57% of workers) were employed in Managerial/professional/technical occupations. 26% of workers were employed in Managers, directors and senior officials. 14.3% of working age people in College Town have no formal qualifications.

60.2% of children living in Bracknell Forest achieved 5 GCSEs at grade A\* to C. 75% of children living in College Town achieved 5 GCSEs at grade A\* to C. 65.4% of children living in Bracknell Forest achieved the expected level of attainment at Key Stage 2. 80.3% of children living in College Town achieved the expected level of attainment at Key Stage 2.

The average life expectancy at birth for males living in College Town is 84.4 years. The average life expectancy at birth for females in College Town is 94.3 years. Death rates from all causes in people aged less than 75 are Lower than expected. Emergency hospital admissions for all causes are Lower than expected\*.

An estimated 23.8% of adults in College Town are obese. An estimated 18% of adults in College Town binge drink. An estimated 27.8% of adults in College Town eat healthily.

There are a total of 2098 dwellings in College Town. The most common housing type in College Town is Detached. This accounts for 39.2% of all housing. The average household size in College Town is 2.6 people and 3% of housing in College Town is classified as needing one or more bedrooms more than it has in order to be adequately sized for the number of people living there.

There were 279 crimes recorded in College Town during 2013/14. This equates to 43 crimes per 1,000 people living in College Town - a rate that is lower than the average across Bracknell Forest.

In College Town 100% of the population live in areas classified as urban city and town.

\* Given the age and gender structure of the population and national death/admission rates

# 1. SUMMARY

Category	Indicator	College Town	Bracknell Forest Average	Ward Range Worst	Local Authority Average		Ward Range Best
					← Worst	Best →	
Deprivation & access	Indices of Multiple Deprivation - IMD (2010)	4.6	9.6	17.6			3.0

Community Safety	Crime rate per 1,000 (2013/14)	43.0	37.1	153.7			11.5
	Anti-social Behaviour rate per 1,000 (2013/14)	7.6	10.3	29.9			2.3
	Theft and handling stolen goods rate per 1,000 (2013/14)	25.6	13.2	76.8			1.7
	Violence with/without injury rate per 1,000 (2013/14)	3.2	6.6	22.7			1.5

## How to read the spine chart:

The shapes on the graph represent the value of the ward compared against the Local Authority average. If positioned to the right of the average line this suggests the ward is performing 'better' in a particular indicator, to the left suggests it is 'worse'. This does not necessarily mean higher or lower values, e.g. high GCSE attainment is 'better', whereas a high crime rate is 'worse'. The light grey rectangle represents the range between the 'best' and 'worst' wards in the local authority. The yellow circles represent values that are within the 75th and 25th percentile for that indicator, or where most values typically lie. The black triangles represent values that are better than the average, whilst the blue diamond shows values that are worse.

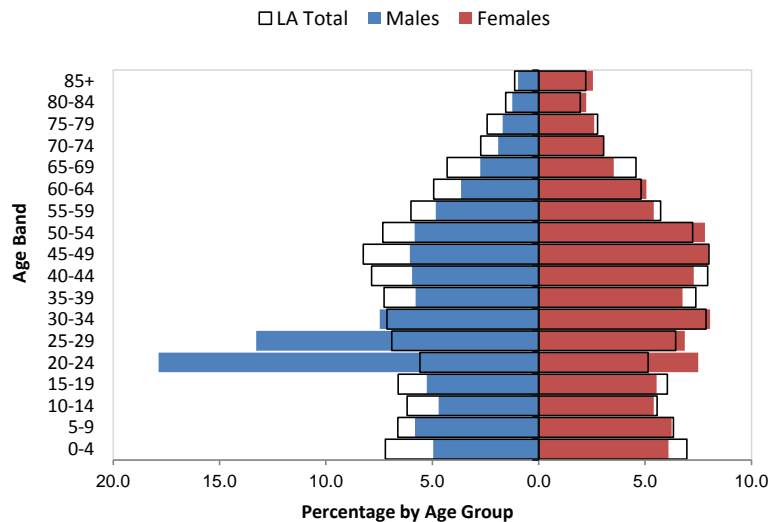

## 2. DEMOGRAPHICS

- College Town has a population of 6,482. This figure has increased at a greater rate than it has on average across Bracknell Forest since 2001.
- The working age population is relatively small in comparison to Bracknell Forest.
- Related to this, the ward has a proportionately smaller young population (8%) and a smaller older population (6%).
- The 2011 Census indicates that 19% of College Town are BME, higher than the Bracknell Forest average.
- The largest single BME population is the Asian/Asian British: Other Asian group. This group represents 45.1% of BME people and 9% of the total population of the ward.

### Population Summary 2013

	College Town	Bracknell Forest
Total Population	6,482	-
Males	3,615	55.8%

### Age of arrival in UK (non-UK born residents)

# 3. DEPRIVATION, POVERTY AND ACCESS TO SERVICES

## Indices of Multiple Deprivation (IMD)

- College Town is the 16th most deprived ward in Bracknell Forest (out of 18 Wards).
- There are no people in the ward who are living in areas classed amongst the 5% most deprived in Berkshire, according to the latest Indices of Deprivation.
- There are no people in the ward who are living in areas classed amongst the 5% most deprived in Bracknell Forest, according to the latest Indices of Deprivation.

## Child Poverty

- 5.5% of children in College Town are at risk of living in poverty, compared with 10.2% across Bracknell Forest.
- This figure has risen by -0.7% since 2006.

## Free school meals

- 7.9% of children living in Bracknell Forest and attending schools in Bracknell Forest are eligible for and receiving free school meals. 4.9% of children living in College Town are eligible for and receiving free school meals.

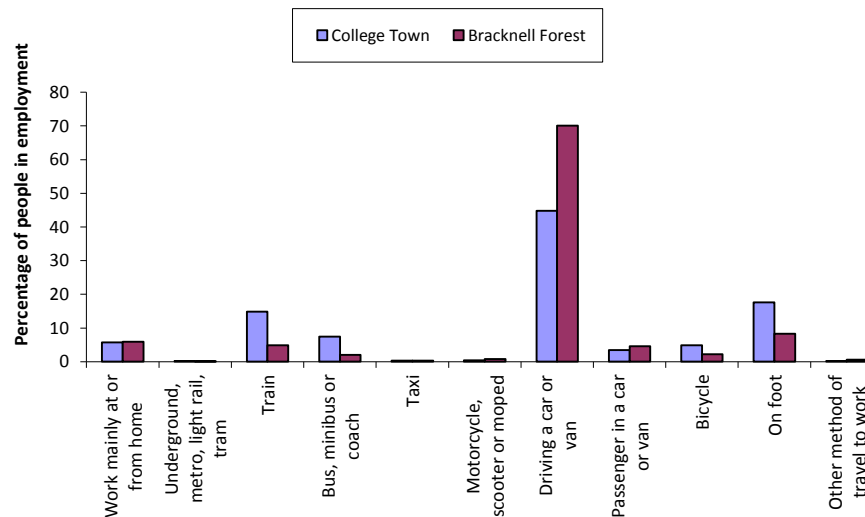

## Accessibility

- Local bus services are provided by First in Berkshire & The Thames Valley and Courtney Buses.
- Bracknell has two main railway stations, Bracknell and Martins Heron, both of which are on the Waterloo to Reading Line operated by South West Trains. As a consequence of the frequent service on this line, Bracknell is now a major commuter centre with its residents travelling in both directions (westwards to Reading and eastwards to London Waterloo).

## Access to Services

- There are 208 households in College Town who do not own a car or van. This is 10.1% of all households in the Ward which is fewer than the Bracknell Forest average.
- The indices of multiple deprivation includes a measure of barriers to housing and services. On this measure College Town is the 18th most deprived ward in Bracknell Forest (out of 18 Wards).
- There are no people in the ward who are living in areas classed amongst the 5% most deprived in Berkshire, on this measure according to the latest Indices of Deprivation.
- There are no people in the ward who are living in areas classed amongst the 5% most deprived in Bracknell Forest on this measure according to the latest Indices of Deprivation.

Method of travel to work

# 4. ECONOMY AND ENTERPRISE

In College Town 4.5% of the working age population claim benefits compared with 7.4% in Bracknell Forest. Broken down:

Statistical Group	College Town		Bracknell Forest	
Job Seekers	35	0.8%	1,170	1.5%
ESA and Incapacity Benefits	75	1.7%	2,475	3.2%
Lone parents	20	0.5%	675	0.9%
Carers	30	0.7%	605	0.8%
Other income benefits	5	0.1%	130	0.2%
Disabled	30	0.7%	665	0.8%
Bereaved	-	0.0%	125	0.2%
<b>Total Claimants</b>	<b>195</b>	<b>4.5%</b>	<b>5,845</b>	<b>7.4%</b>

## Qualifications

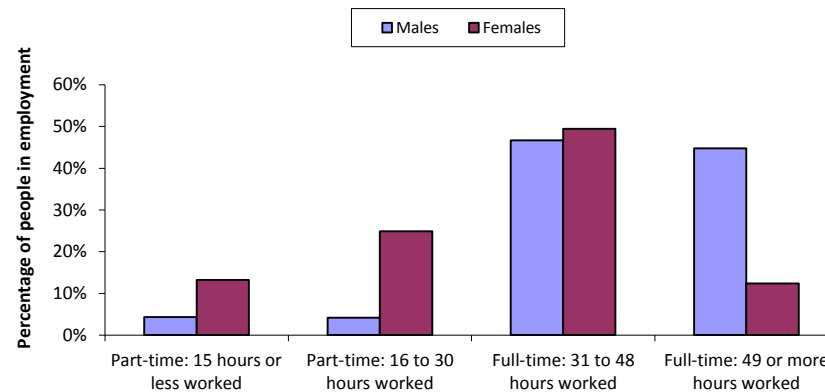

Recent statistics on qualifications are available at ward level using data collected as part of the 2011 Census. This showed that:

- 14.3% of working age people in College Town have no formal qualifications.
- 46.5% were qualified to NVQ Level 3 or higher compared with 43% in Bracknell Forest as a whole.
- Please see the 'Education' section of these Ward Profiles for information on school attainment.

## Employment

- In College Town, the majority of people in employment (57% of workers) were employed in Managerial/professional/technical occupations. 26% of workers were employed in Managers, directors and senior officials.
- In Bracknell Forest as a whole the majority of people in employment (47% of workers) were employed in Managerial/professional/technical occupations. 19% of workers were employed in Professional occupations.
- 76.05% of the population of College Town who are aged 16 to 74 years are in employment. This is higher than the average in Bracknell Forest.
- 2.6% of the population of College Town who are aged 16 to 74 years are unemployed. This is lower than the average in Bracknell Forest.

Hours worked

## 5. EDUCATION

We have to treat the following data with some caution due to the small numbers that are involved in the calculations. It is likely that differences between areas will be largely due to random effects occurring within the data. Data is only available at a Ward level for children who both live in, and attend school within, the local authority.

### **Pupil characteristics**

- 16.2% of children living in Bracknell Forest come from non-White British backgrounds. 27.1% of children living in College Town come from non-White British backgrounds.
- 8.7% of children living in Bracknell Forest have English as a second language. 20.2% of children living in College Town have English as a second language.

### **Unauthorised absences**

- 0.8% of school sessions were missed through unauthorised absences by children living in Bracknell Forest. School absence data is not available for College Town.

### **Key Stage 2 attainment**

- 65.4% of children living in Bracknell Forest achieved the expected level of attainment in Key Stage 2. 80.3% of children living in College Town achieved the expected level of attainment in Key Stage 2.

### **GCSE attainment**

- 60.2% of children living in Bracknell Forest achieved 5 GCSEs at grades A\* to C which included English and Maths. 75% of children living in College Town achieved 5 GCSEs at grades A\* to C which included English and Maths.

### **Schools**

- There are two schools located in College Town; College Town Infant and Nursery School and College Town Junior School.

## 6. HEALTH

It is often difficult to use health data when looking at small areas such as Wards. This is because of the size of the numbers involved. For example, only a few people from each Ward may be admitted to hospital each year for a specific condition. When we are looking at numbers that are very small we have to consider two key points before they are used in profiles such as this. Firstly, when numbers are small we are not legally able to share them as the individual may be identifiable from the data. Secondly, it is difficult to come to any reliable conclusions from information which is based on these small numbers. It may also be the case that the information is not available at these low levels. This is particularly true of information about peoples lifestyles (for example, how many people smoke or drink alcohol). One of the ways that this is overcome is to use 'modelled' data. This is data that has been taken from a much larger number of people and used to estimate the likelihood of a certain characteristic appearing in other areas such as Wards depending on some key features of that area such as how many people of a particular age group live there.

- The percentage of live births to mothers living in College Town which were of a low birth weight is estimated to be 6.3%. The percentage on average across Bracknell Forest is 6.3%. Any difference is not statistically significant.
- The number of people living in College Town who are diagnosed with cancer is lower than expected given the age and gender structure of the population.
- The average life expectancy at birth for males living in College Town is 84.4 years. The average life expectancy at birth for females in College Town is 94.3 years.

### Deaths

Deaths from all causes, all ages	Lower than expected*
Deaths from all causes, under 65	Lower than expected
Deaths from all causes, under 75	Lower than expected
Deaths from all cancer, all ages	Lower than expected
Deaths from all cancer, under 75	Lower than expected
Deaths from circulatory disease, all ages	Lower than expected
Deaths from respiratory diseases, all ages	Lower than expected

\* Given the age and gender structure of the population and national death rate

### Hospital admissions

Emergency hospital admissions for all causes	Lower than expected*
Planned hospital admissions for all causes	Higher than expected
Emergency hospital admissions for all coronary heart disease	As expected
Emergency hospital admissions for stroke	As expected
Emergency hospital admissions for heart attack	As expected
Emergency hospital admissions for chronic obstructive pulmonary disease	Lower than expected

\* Given the age and gender structure of the population and national admission rates

# 6. HEALTH

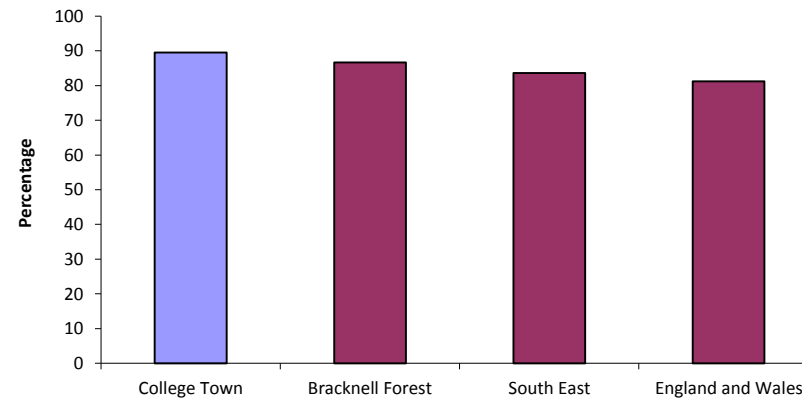

## Lifestyles

- The heights and weights of children in reception year and year 6 are measured annually as part of the National Child Measurement Programme. 6.95% of reception year children in College Town are obese. An average of 7.5% of reception year children in Bracknell Forest are obese.
- 16.6% of year six children in College Town are obese. An average of 14.9% of year six children in Bracknell Forest are obese. It is important to note that this data at Ward level involves small numbers and any differences between areas will be, in part, due to chance occurrences in the data.
- An estimated 23.8% of adults in College Town are obese.
- An estimated 18% of adults in College Town binge drink.
- An estimated 27.8% of adults in College Town eat healthily.

## Sense of health and wellbeing

- According to the 2011 Census 89.5% of adults in College Town feel that they are in either good or very good health.
- 3.7% of adults in College Town feel that their lives are limited a lot due to ill health or disability and 5.5% of adults in College Town feel that their lives are limited a little due to ill health or disability.

People providing at least one hour of unpaid care per week

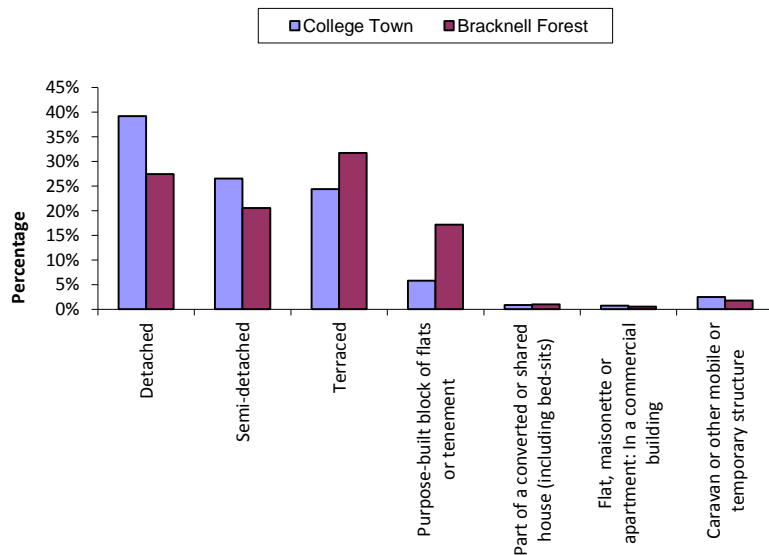

# 7. HOUSING

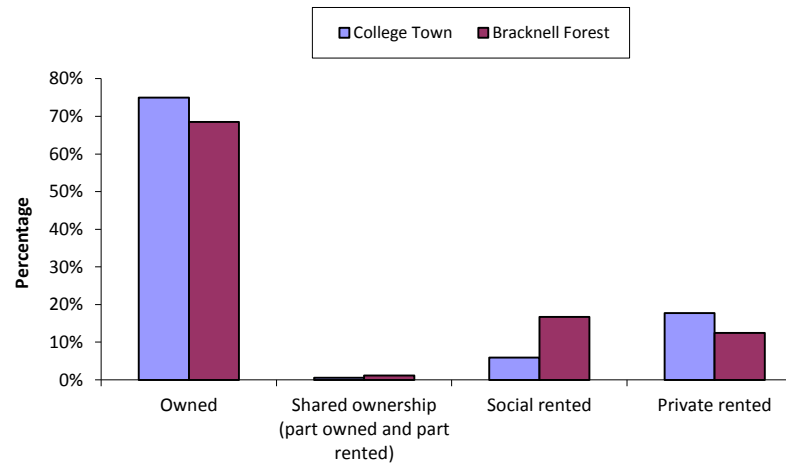

- The most common council tax band in which housing in Bracknell Forest falls is Band C. This accounts for 37.5% of all dwellings. The most common council tax band in which housing in College Town falls is Band C. This accounts for 33.5% of all dwellings.
- There are a total of 2098 dwellings in College Town. 0% of these are shared dwellings. This is fewer than the average number of shared dwellings across Bracknell Forest.
- The most common housing type in College Town is Detached. This accounts for 39.2% of all housing.

- The average household size in College Town is 2.6 people. Which is larger than the average for Bracknell Forest.
- The average number of rooms in houses in College Town is 5.9. Which is more than the average for Bracknell Forest.
- The average number of bedrooms in houses in College Town is 3. Which is more than the average for Bracknell Forest.
- 3.02% of housing in College Town is classified as needing one or more bedrooms more than it has in order to be adequately sized for the number of people living there. This is fewer households than the Bracknell Forest average.
- 0.68% of houses in College Town do not have central heating. Which is fewer than the average for Bracknell Forest.

Housing types

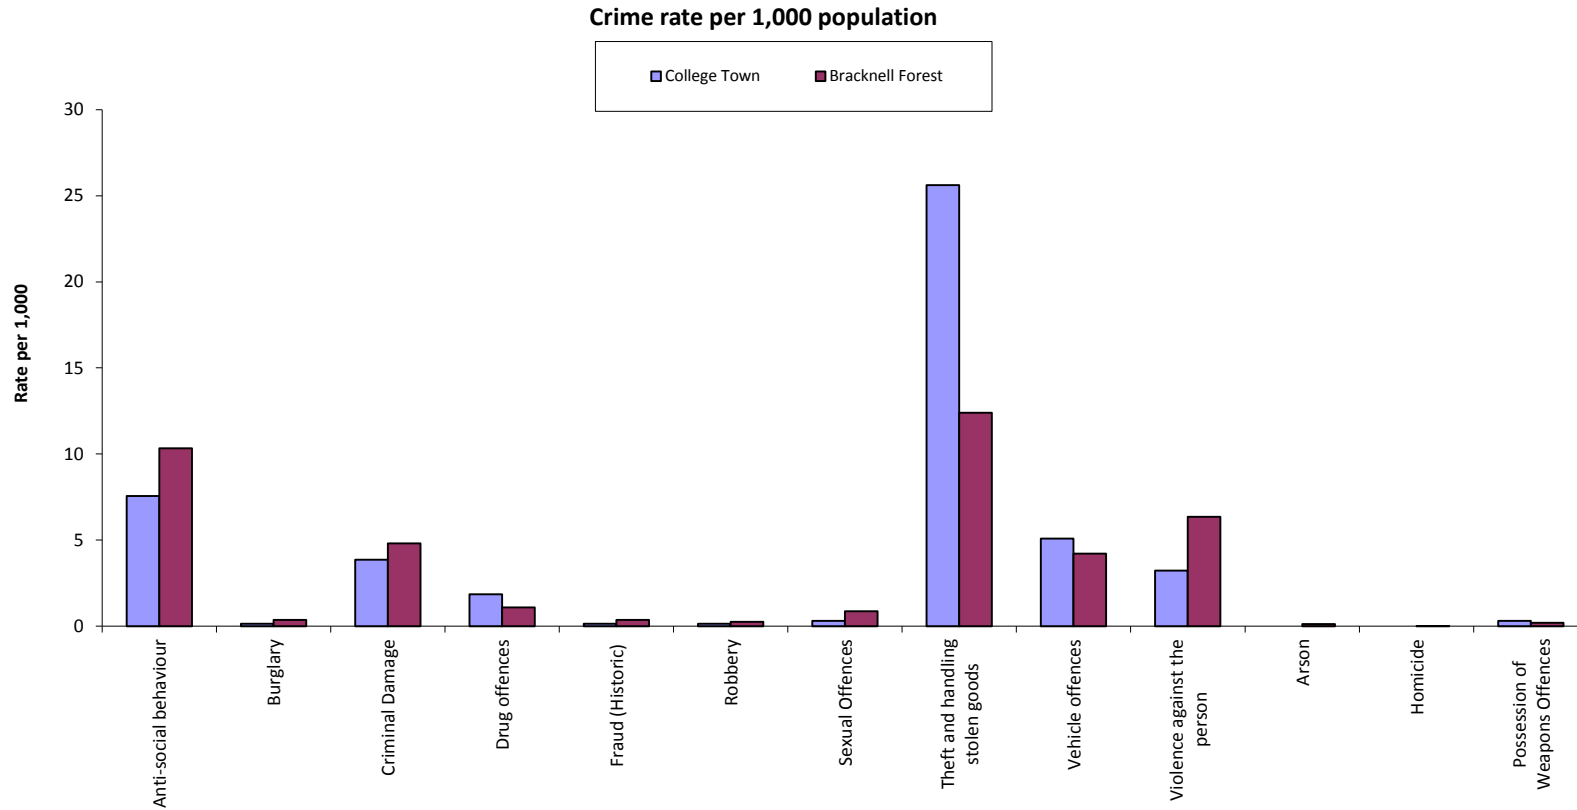

Housing tenure

# 8. COMMUNITY SAFETY

- There were 279 crimes recorded in College Town during 2013/14. This equates to 43 crimes per 1,000 people living in College Town - a rate that is lower than the average across Bracknell Forest.
- The most commonly occurring crime was classified as Theft and handling stolen goods for which there were 25.61 crimes per 1,000 people living in College Town.

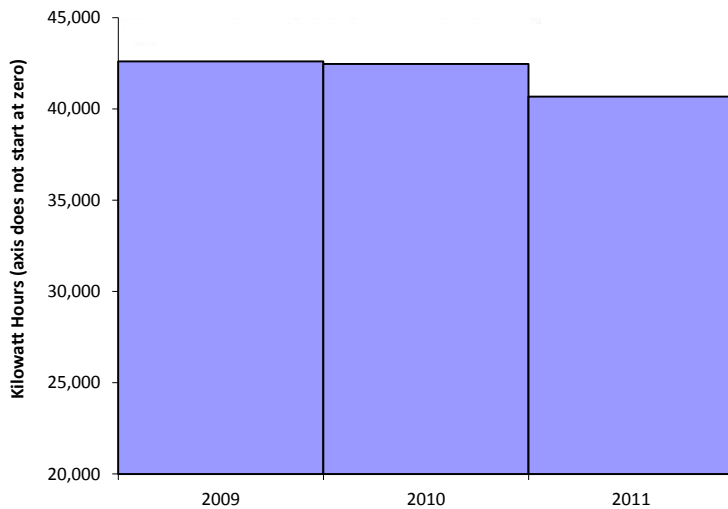

# 9. ENVIRONMENT

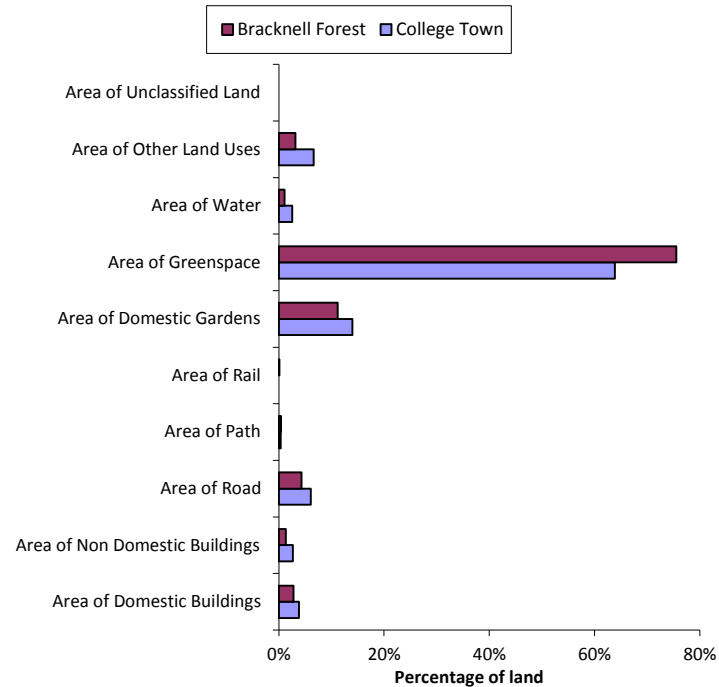

- In College Town 100% of the population live in areas classified as urban city and town.
- College Town has an area of 406 hectares which represents 3.71% of the total area of Bracknell Forest Unitary.
- Population density describes the average number of people living in each hectare of land in an area. There are an average of 15.5 people living in each hectare of College Town. This is more than are living on average in each hectare of Bracknell Forest.

The most common land use in College Town is areas of Greenspace, this is followed by areas of Domestic Gardens and areas of Other Land Uses.

**Total domestic energy consumption**

**Land use**

# 10. SOURCES OF DATA

Item	Source	Date	Description
<b>1. Summary Indicators</b>			
Indices of Multiple Deprivation - IMD (2012)	Department for Communities and Local Government (DCLG)	2010	A national index of deprivation, where 32,480 Lower Super Output Areas are ranked in order of relative deprivation
% children in Poverty (2012)	Department for Work and Pensions (DWP)	2014	Measures the % of children in households receiving Child Tax Credits and with incomes 60% or less of the median
Access to Services - IMD domain (2010)	DCLG	2010	A national index of deprivation, where 32,480 Lower Super Output Areas are ranked in order of relative deprivation
% JSA Claimants (November 2014)	NOMIS	2014	DWP benefits data published by NOMIS
Post-16 Qualifications - % Level 3 or higher (2011)	2011 Census	2011	% of working age population with level 3 or higher
% key Stage 2 Level 4+ (2012)	DFE/Berkshire Local Authorities	2011/12	% of pupils achieving Level 4 or higher in both English and Maths
% 5+ GCSEs A*-C (inc Maths and English) (2012)	DFE/Berkshire Local Authorities	2011/12	% of pupils achieving 5 or more GCSEs at grade A*-C including English and Maths
All Cause Mortality <75 (2008-10)	Public Health England	2006-2010	Age/sex standardised mortality rates
Life Expectancy - males (2008-10)	Public Health England	2006-2010	Life expectancy at birth calculated from all cause, all age mortality
Life Expectancy - females (2008-10)	Public Health England	2006-2010	Life expectancy at birth calculated from all cause, all age mortality
Emergency hospital admissions for all causes (2010/11)	Public Health England	2006-2010	Age/sex standardised hospital admission rates
% low Birthweights <2500g (2008-10)	Public Health England	2007-2011	Percentage of live births with weight <2,500g
% occupancy rating - bedrooms -1 or less (2011)	Public Health England	2011	A measure of under-occupancy and over-crowding. A value of -1 implies that there is one room too few and that there is overcrowding in the household.
% no Central Heating (2011)	2011 Census	2011	The percentage of housing which does not have central heating
% socially Rented (2011)	2011 Census	2011	The percentage of households that socially rent
Crime rate per 1,000 (2013/14)	2011 Census	2014	Total crime rate per 1,000 population
Anti-social Behaviour rate per 1,000 (2013/14)	Thames Valley Police	2014	Total ASB rate per 1,000 population
Theft and handling stolen goods rate per 1,000 (2013/14)	Thames Valley Police	2014	Total Theft and Handling of Stolen Goods rate per 1,000 population
Violence with/without injury (2013/14)	Thames Valley Police	2014	Total violence with/without injury rate per 1,000 population
